Introduction to Connect Logistics

ABOUT US:

At Connect Logistics we are focused on delivering operational excellence to our customers, each and every day. By uniting and working together, we focus on growing our business by offering outstanding warehouse services and developing our business to support theirs. At every link in the logistics domain, we make business flow.

VISION STATEMENT:

To create new value, excite and delight our customers.

MISSION STATEMENT:

Committed to deliver the highest quality of service and customized solutions for Connect's valued business partners as fuel to boost their growth

Provide superior transportation and storage services that meet or exceed our customers' expectations. We, as an innovative leader in our industry, will promote safety, dependability, efficiency, and exceptional customer service by using current best practices.

Aiming at long-term mutually beneficial relationship on the grounds of trust, integrity and delivery.

Warehouse Management System

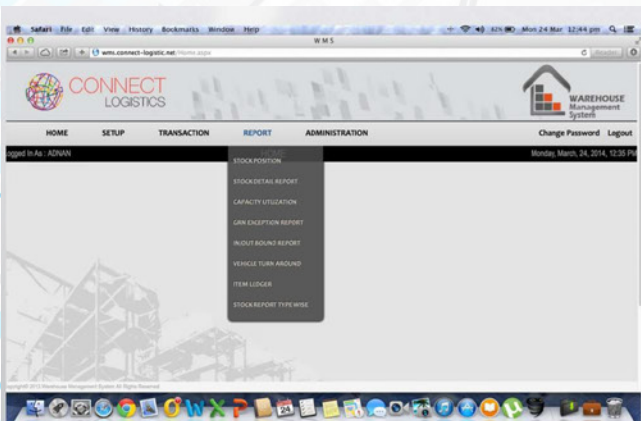

Based in the specific needs of our customers and the desire to exceed our customers service level expectations, we have developed a customer made in-house warehouse management software (SQL Server based on web 2.0). The software has been designed to be modular, allowing us to provide custom dashboards to each one of our individual clients, as well as support integration with customers ERP.
